1. Product information

Full kit **Software only**

Product title
ROUTE 66 Navigate 7 – North America for Pocket PC

Subtitle
Turn your Pocket PC into a powerful navigation system

Unique selling points (USP)

- Everything you need is in one box: navigate from the store
- Smooth scrolling animated 3D map display made possible with intelligent GPS tracking
- Maximum GPS signal strength is achieved using intelligent navigation in tunnels and urban areas
- Carry your navigation system with you and use it on foot, or in your car or truck
- Easy to use icon based touch screen interface
- The most up to date map data available is included (NAVTEQ Q4 2005)
- Automatic and instantaneous route recalculation when a wrong turn is made
- Clear and timely voice instructions make navigation easy
- Thousands of points of interest with full contact information help you find a hotel or restaurant (and more), and make a reservation - all from the ROUTE 66 screens
- Avoid speeding tickets with the interactive speed warning system
- Full road and junction information is displayed on the screen
- An intuitive address finder, using our proprietary search engine, quickly finds your destination with a minimum amount of typing
- Fully customize speeds on all road types to allow precise calculation of your arrival times
- Customize the on screen information, design and colors to suit your taste

2. Pocket PC requirements

Your Pocket PC must have the following specifications

- A free slot for an extra memory card (SD/miniSD)
- Windows Mobile 2003 operating system or higher
- 16 MB free runtime memory
- Optional: you must have access to a PC with a USB port and a DVD-ROM drive to re-install the geographic map and voice instructions from the enclosed back-up DVD-ROM
